

4 Day Omak Fixed Base Tour

Wednesday, September 22 – Sunday, September 26, 2021

Total cost: **\$600 (Price includes tour souvenir)**

Single supplement: **\$300** (paid at time of registration)

Deposit: **\$200** (paid at time of registration)

Final Payment: **\$400 due by June 20, 2021**

Rider limit: **36**

Tour Leaders: Ralph Nussbaum & TBD

Tour Rating: Intermediate/Advanced (Read Level of Difficulty below.)

OVERVIEW:

For the past seven years we have enjoyed leading a four-day fixed base weekend tour on the east side of Washington to escape the rather dreary cold and wet spring weather of the Seattle region. This year we are again leading a classic “Hub and Spoke” tour out of Omak. This tour offers early season challenges to strong riders. While the tour is based in Omak, the ride start location may be as much as 40 miles away in order to keep the daily mileage down to under 100 miles. Each day’s route will have varying lengths and elevation gains, though three days go over mountain passes. Omak itself lies at only 800 feet and the surrounding passes go up as high as 3,500 to 4,300 feet which should be snow free in September. We added some new routes in 2018 which we weren’t able to fully ride due to flooding!

WHAT TO EXPECT:

LEVEL OF DIFFICULTY:

This tour is rated as Intermediate/Advanced. The routes start at sixty miles and get as long as almost ninety miles. Most routes are hilly; there are three mountain passes. In addition, possible wind and rain may make the rides more difficult. On the other hand, as a hub and spoke tour one can always turn back early and return to the hotel.

WEATHER:

Weather in the Okanogan Valley and surrounding mountains in September can be quite variable; both warm/sunny days as well as cold rain/hail, and wind are possible. Riders need to be prepared for all types of weather.

LODGING/MEALS:

Our lodging is the very nice [Best Western Peppertree Inn](#) in Omak, with easy access to restaurants by foot or by car. A daily hot breakfast is included. Snacks and lunch will be provided off the sag vehicles.

DAY BY DAY ITINERARY: (Mileages & Elevation gains are approximate – route September vary slightly due to unforeseen circumstances.)

Wednesday, September 22 – Orientation Meeting in Omak

We **meet** the first night in Omak at **8:00 PM** and get to know each other during a brief informational meeting. Folks may wish to get together for dinner informally beforehand.

Thursday, September 23 – Twisp Chewuch River Ride, 60 miles – 2100’ elev. gain

The first day’s ride, first pioneered 2 years ago, comes highly recommended by the Mountaineer’s as one of 75 *Classic Rides of Washington*. We will go due north and west from Twisp (a 37 mile drive west of Omak) uphill along through gorgeous valleys and back to Twisp. A great warm-up ride.

Friday, September 24 – Disautel Pass Loop, 84 miles – 5100’ elev. gain

The second day we will make a loop from Omak in a southeast direction. We start by climbing over Disautel Pass (3200’) to Nespelem. From there we drop down to the bluffs above the Columbia River and past Omak Lake before returning back into Omak.

Saturday, September 25 – Cheesaw-Oroville Loop, 82 miles – 5575’ elev. gain

The third day (the “Queen Stage”) is probably the most difficult. This new version was first fully ridden last year! We drive to Tonasket and start the arduous climb up to the small Sitzmark Ski Area at 4,00’ as we have in previous years. Again, instead of heading towards Bonaparte Lake we will turn westward down to Oroville. From there it is a relatively easy ride back to Tonasket on roads familiar to those who have been on this tour before.

Sunday, September 26 – Conconully Loop, 52 miles – 2500' elev. gain

The last day is a short one, about 52 miles and about 2,500 feet of climbing up to the old gold mining town of Conconully nestled between Conconully Lake and Conconully Reservoir. From there it is a quick plunge back to our cars and the end of a wonderful weekend of riding.
